1. What is the status of your project? Is it complete, if not then by what date will it get completed?

Our project is 80% complete. Most probably it will be completed by 13th June.

2. According to your Plan of Action, what is your last week's work?

Making the system fairly accurate as possible & testing it.

3. How much work is left to be done on your project?

We had to implement some new ideas (for improvement) for fair accuracy of system so we had to rebulit the chasis & design acordingly.The new improvement will be tested by 9th June.

4. Mention **ALL purchases** were made for your project, including the ones you think to buy in the coming week?

Magnetometer,New chasis,mechanical stuff lyk screws etc,

5. What problems did you face with respect to project work in this week? What was the solution to these problems?

We had a problem of the accuracy of the system in real world application, so we solved it with help from our mentor.

6. Who were your MENTORS? Provide a feedback about them?

Our mentor was Puskar Limaye . He was very helpful & always there for us to solve our problems, also to discuss ideas with us & also supervise their implementation.

7. What is your progress on the designing of A1 size poster and video about the project?

Yet to begin on that aspect .We will start asap after we are done completing our project.

8. What is the status on your bills? What is their total amount? Have you made the spread sheet we had asked for?

Our current bill total amounts to 4653Rs.No we havent yet made the spreadsheet.
